Introduction. Food web is an important ecological concept. Basically, food web represents feeding relationships within a community (Smith and Smith 2009).  
<http://www.nature.com/scitable/knowledge/library/food-web-concept-and-applications-84077181>

To understand the Desert Food Web, first read about the Desert Biome using this link. Then read about the different trophic levels of a typical Food Chain (below).
